Moorland Road, Burslem, ST6 1DY

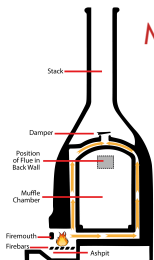

DECORATING MUFFLE KILN

The Chelsea Works' four-chambered muffle kiln is of a unique two-up, two-down design. It has 8 unusual fire mouths, requiring coal to be fed from above, and the chambers are lined

with 'Thistle' refractory bricks. Built between 1924 and 1930, it was used for decorated ware. Ceramic designer, Susie Cooper moved here in 1930.
